**Subject:-** Approval For the Permission of Industrial Visit

Respected Sir/Madam,

As per the university norms (Pune University), Second and Third Year Master's Of Computer Application Engineering students of Gokhale Education Society R.H.Sapat College of Engineering, Nashik, Maharashtra, would like to arrange an Industrial Visit. We have gone through the Portfolio of your Company and would like to conduct this visit to your company

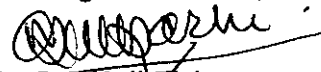

It will be a great opportunity for us to upgrade our knowledge and get the chance to learn from your management. We will be taking our Forty (40) students along with four faculties.

Our main motive behind this visit is getting actual knowledge from the corporate world and to fill the gap between industry and academic institute. It is our firm to belief that your company can certainly provide us such knowledge and experience, which would help us to understand functionality and the working nature of the big organization like yours. We assure you that the crucial information, which you will provide, will be used for the academic purpose and further project work only.

Kindly looking ahead for your positive response. We will be visiting on third week of December 2013.

Thanking You,

Regards.

  
Dr. P.C. Kulkarni

Prin. T.A. Kulkarni Vidyanagar, Nashik - 422005, Maharashtra, India. Contact : 0253-2570104 ☎ 0253-2570106.

December 20, 2013

To  
THE PRINCIPAL  
Raj Sapat College of Engineering  
Nashik  
Maharashtra.

Dear Sir,

We are happy that you have read your students to visit our office, a Stabilix Solutions, 212 Vitea, Technopark, Trivandrum, Kerala. It was good to have your students here, as we could share our experience and challenges we face.

Yours faithfully,

Airya Philip

(AIRYA HARY PHILIP)  
PROJECT LEAD

**TO**  
**THE PRINCIPAL**  
**RH Sapat College of Engineering**  
**Nashik**  
**Maharashtra**

Dear Sir,

We are happy that you have opted Technopark for your industrial visit and we are glad to permit your students to visit our campus on <sup>20</sup>~~19~~<sup>th</sup> Dec 2013. But this permission is only to visit our campus. Visit to the companies in the campus is to be permitted by the concerned company. In case you would like to visit any of the companies in our campus you may have to take their permission directly.

Please contact our Assignment Inspector Mob 9846241797 at the Main Gate who will take your students around.

Yours Faithfully

Abhilash D.S.  
Officer (HR & Admin)

✓ 38 students & 3 staff of above said Institution visited this day at 1030 hrs. & left. 1230 hrs.

Subject: Approval for Industrial Visit.

For the academic purpose, we the students of MCA Department are looking ahead for the Industrial visit in kerala –Trivendrum- kanyakumari . We request for your permission so that we can grab this opportunity to acquire knowledge from the corporate world and fill the gap between industries and academic industries.

This visit is likely to be conducted in second week of Dec 2013 under the guidance of HOD and staff from MCA Department.

The details of the route, schedule and the list of interested students have attached. We kindly request you to grant the permission for industrial visit.

We assure you that we will abide by all rules and regulations and maintain discipline during the industrial visit.

Kindly grant the request.

Thanking You.

Approved for 40  
students + 4 staff  

Yours Faithfully,

  
[Gatne Prachi R]

  
[Kardekar Chetan S.]

### 3<sup>rd</sup> International Yoga Day Celebration

All Teaching, Non Teaching Staff & Students are hereby informed that as 21<sup>st</sup> June 2017 going to be observed and celebrated as 3rd International Yoga Day, on this occasion Common Yoga Practice is organized in our college. One of the proud Students of our College Mss. Priti Narwade of B.E. E & TC Department is a Professional Yoga trainer will guide us for the Common Yoga Practice.

Herewith all Staff and Students are requested participate in this program.

Schedule of the program is as below;

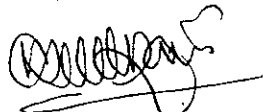

#### 3<sup>rd</sup> International Yoga Day Celebration Program of Common Yoga Practice

<u>Day &amp; date</u>	: Wednesday , 21/06/2017
<u>Time</u>	: 08:15 to 09:15 a.m.
<u>Venue</u>	: Main entrance of our College building
<u>Yoga Trainer</u>	: Mss. Priti Narwade

Note : Be present on-time in a proper and comfortable outfit to perform yoga.

Subject :- Practical type training program on  
"Electrical Control Panel Design and Circuits"

Kind Attn. :- Head of Department, Electrical Engineering.

Respected sir,

As a part of "Skill India Drive" we have started the Certified Electrical Skill Development Training Program's in Nashik for provide practical oriented training of Electrical Control Panel Design's & Advanced Electrical Circuit's to the final year / pass out students of Degree in Electrical Engineering for their carrier transformation in electrical field.

Under this scheme, I would like to deliver 2 hrs. seminar for your Final year students of Degree in Electrical Engineering at your seminar hall. Please schedule the suitable date and time for the same and inform us as early as possible.

Guest Faculty,  
Shrikant V. Jadhav (DEE)  
25 years working experience in ABB,  
Own Business of Electrical Control Panel Designing and manufacturing,  
from last 10 years.

Please consider our kind request. Looking forward to your constructive response in the matter.

Your s truly,

### **Basic C language Course**

The Aim of C course is to understand basics of C language which useful for the subject Numerical methods and computer programming class SE and Advanced Microcontroller Class TE.

In Numerical methods and computer programming for SE semester II unit 1 is based on C programming and all tutorials and experiments based on C language, the syllabus doesn't contain in details of basic C language, but for online exam question asked based on it. Specially Direct second year (Diploma Students) face problem regarding C language and its programming. The C Course Covers details of basic C language with MCQ and practically run program on Software to validate the same. To make student able to write c program for any mathematical modeling, eg. Find Root, Find Eigen value, find Determinant,

In Subject Advanced microcontroller and its applications for TE semester I all experiments based on embedded c which requires knowledge of basic C language.

I have created Google classroom and invite all students to join it. In Google classroom books pdf, assignment, question paper, MCQ paper attached so as all student can use it.

## C Course Schedule

Session no	Date	Day	Time
1	05/01/2018	Friday	9:15am - 10:15am
2	06/01/2018	Saturday	3:15pm - 4:15pm
3	06/01/2018	Saturday	4:15pm - 5:15pm
4	08/01/2018	Monday	4:15pm - 5:15pm
5	09/01/2018	Tuesday	9:15am - 10:15am
6	10/01/2018	Wednesday	4:15pm - 5:15pm
7	12/01/2018	Friday	9:15am - 10:15am
8	13/01/2018	Saturday	3:15pm - 4:15pm
9	13/01/2018	Saturday	4:15pm - 5:15pm
10	15/01/2018	Monday	4:15pm - 5:15pm
11	16/01/2018	Tuesday	9:15am - 10:15am
12	17/01/2018	Wednesday	4:15pm - 5:15pm
13	19/01/2018	Friday	9:15am - 10:15am
14	22/01/2018	Monday	4:15pm - 5:15pm
15	23/01/2018	Tuesday	9:15am - 10:15am
16	24/01/2018	Wednesday	4:15pm - 5:15pm
17	27/01/2018	Saturday	3:15pm - 4:15pm
18	29/01/2018	Saturday	4:15pm - 5:15pm
19	30/01/2018	Monday	4:15pm - 5:15pm
20	31/01/2018	Tuesday	9:15am - 10:15am

  
Course incharge  
Prof. Mrs. R. S. Tidke

  
HOD  
Prof. M. K. Chaudhari

Gokhale Education Society's  
R. H. Sapat College of Engineering Management Studies & Research,  
Nashik – 422005

Department of Electrical Engineering  
CLASS :- SE ELECTRICAL  
**Basic C language Course**

### Content

Sr.No.	Topic to be covered
1	Introduction to C language, structure of C program, predefined functions, C programming Rules, Algorithm, and Flowchart. Preprocessor directives, Lvalue, Rvalue, Garbage value, Compile time error, Run time error, Warning.
2	C tokens, keywords, identifiers, Constants, special symbols, Variables ,local variable , global variable,
3	Data types , integer with sub types, float ,character, double ,its ranges and sizes
4	Practical session 1 with programs, MCQ,Test
5	C operators- Arithmetic operators, relational operator, logical operators with programs
6	C operators- Assignment operator , Increment /decrement operator with programs
7	C operators – Conditional operator , Bitwise operator , special operator with programs
8	Practical session 2 with programs, MCQ,test
9	Precedence of C operator, Maths functions, backslash character, Hierarchy of data types.
10	Control Statement – if statement , if-else , nested if-else
11	Control loops –for ,while ,do-while , infinite loop concept
12	Practical session 3
13	Break statement , continue statement , switch statement ,goto statement
14	Array - initialization , declaration ,types, use Array programs ,MCQ,
15	Practical session 4 Test
16	Functions –initialization , declaration ,prototypes
17	Types of functions call by value, call by reference.
18	User defined functions and types
19	Practical session 5 Test
20	Pointers- initialization , declaration Pointer –function ,programs Pointer- array , programs

  
Course incharge  
Mrs.R.S.Tidke

  
HOD  
Mr.M.K.Chaudhari

**Department of Electrical Engineering**  
**IET Nashik Local Network**

**Date: 24/03/2017**

### **Workshop on Cyber Security**

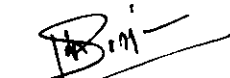

All SE, TE and BE Electrical Engineering students are hereby informed that department of Electrical Engineering organizing a workshop on Cyber Security under IET Nashik Local Network on 25/03/2017.

**Interested students should participate.**

**Registration Charges: 200 Rs. Per student.**

**Schedule:**

<b>Registration</b>	<b>12.30 pm to 1.00 pm.</b>
<b>Session 1</b>	<b>1.00 pm to 3.00 pm</b>
<b>Short break:</b>	<b>3.00pm to 3.15 pm</b>
<b>Session 2</b>	<b>3.15pm to 5.15 pm</b>

  
**Prof. D. M. Sonje**  
IET Coordinator

  
**Prof. M. K. Chaudhari**  
Head of Electrical engineering

R. H. Sapat College of Engineering, Management Studies & Research Nashik  
DEPARTMENT OF ELECTRICAL ENGINEERING

Subject: Approval for electrical workshop under ICUBE activity for the year 2015-16 [Electrical Engineering Dept.]

Our department is going to conduct the electrical workshop under the ICUBE activity in the academic year 2015-16 which are as listed below:

**Main objectives of the workshop**

- To bridge the gap between theory and practical knowledge of students.
- To refresh the knowledge of the student whatever they have studied in last four years
- To enhance the logical thinking of the students.
- To increase the confidence level of the students to face the interview.
- To refresh the basic electrical principles and laws studied during last four years.

Keeping the above objectives in mind following activities is being planned for Electrical Engg. students.

**For SE Sem-I**

1. Verification of faraday's law of electromagnetic induction.
2. Estimation of components of household wiring & applications.
3. To measure parameters of coil using conventional methods.

**For TE Sem-I**

4. Using op-amp 741 design a comparator, Schmitt trigger, sine wave generator.
5. How to identify field & armature of DC motor.
6. Testing of cable using IR tester/megger.
7. Troubleshooting of single phase motor.

**For BE Sem-I**

1. Design of various controllers for unstable system.
2. Identifying the terminals of various sensors.

3. Estimation of components of proper sizes of switches, fuse, overload relay, cable size, for small industrial unit.
4. Control & power circuit for jogging/inching operation of induction motor using single push button.
5. Troubleshooting of home appliances.

The detailed objectives of each activity are being given below:

#### **Verification of Faradays law of electromagnetic induction**

Faradays law of electromagnetic induction is the basic law which explains the working principle of most of the electrical equipments such as motors, generators, transformers, inductors etc Verification of this law helps in understanding the basic concept

#### **Estimation of components of household wiring and applications**

Basic knowledge of different types of components used in household wiring with its rating and its application is required for all electrical engineers Along with this estimation of components required for the electrification are being worked out in the above assignment

#### **To measure parameters of a coil using conventional method**

How to measure the basic parameters of the coil such as resistance, inductance, and quality factor etc using conventional method can be studied by above experiment

#### **Testing of cable using IR tester**

Health of insulation monitoring is the important requirement of electrical equipments Testing of cable using I R Tester helps to understand how to measure the insulation resistance of cable using I R Tester and the basic parameters affecting the insulation resistance

#### **Troubleshooting of single phase motor**

The single phase motors are simple in construction, cheap in cost, reliable and easy to repair and maintain. Due to all these advantages the single phase motor finds its application in vacuum cleaner, fans, washing machine, centrifugal pump, blowers, washing machine, small toys etc. Finding the different faults encountered in these motors and troubleshooting by simulating faults are explained.

#### **Control & power circuit for jogging/inching operation of induction motor using single push button**

The basic idea of the above experiment is to teach the skills of developing different control circuits for different process application using simple switchgear components

#### **How to identify field and armature of D.C motor**

Identifying the different D.C motor by field and armature connections and their interconnection are being explained in this assignment

### Troubleshooting of home appliance

Home appliances like washing machines, vacuum cleaners, Mixer machines, Iron box, fans, and Washing machines are encountered with simple faults during their operation. It is important for the electrical engineer to understand the cause of these problems and solve it. Construction, working of these appliances and troubleshooting of these faults are being taken up in this assignment

### Identifying the terminals of various sensors

Different types of sensors are used for sensing various parameters such as pressure, temperature, distance, humidity etc. Identifying these sensors, understanding the principle of working of these sensors and their terminal diagrams are being explained

### Using op amp 741, design a comparator, Schmitt triggers, Sine wave generator

Design of different analog circuits such as comparators, Schmitt triggers sine wave generators using op amp 741 are being explained in this experiment. This will help to understand the working principle of operational amplifiers, its characteristics, application and how Operational amplifiers can be used to perform mathematical operations on voltage signals such as inversion, addition, subtraction, integration, differentiation, and multiplication etc

Before starting the workshop a pre-assessment sheet will be given to the students with important questions about the relevant topic of the workshop. The response from the students will be collected. After the workshop again a post assessment sheet will be given to find out the effect of workshop on students.

In the workshop, we will be forming 6 groups and each group will be consisting of 4-6 students and they will be guided by the 2-3 staff members on each group.

The schedule for workshop is given below:

Sr No.	Class	Div	Date	Time
1	SE	A	21/09/2015	10:00-01:00
2	SE	B	22/09/2015	02:00-05:00
3	TE	A	28/09/2015	10:00-01:00
4	TE	B	28/09/2015	02:00-05:00
5	BE	-	30/09/2015	10:00-01:00

The Duty schedule for the staff is given below:

Sr No.	Title	Class	Staff
1	8. Verification of faraday's law of electromagnetic induction.	SE-(A)	DKW MPD

	9. Estimation of components of household wiring & applications. 10. To measure parameters of coil using conventional methods.		LMM HBW
2	1. Verification of faraday's law of electromagnetic induction. 2. Estimation of components of household wiring & applications. 3. To measure parameters of coil using conventional methods.	SE-(B)	VRN MPD
			MNR ARS
3	1. Using op-amp 741 design a comparator, Schmitt trigger, sine wave generator. 2. How to identify field & armature of DC motor. 3. Testing of cable using IR tester/megger. 4. Troubleshooting of single phase motor.	TE-(A)	SPK PKG AML

DEPARTMENT OF ELECTRICAL ENGINEERING

## ICUBE Activity

### REPORT OF ELECTRICAL WORKSHOP ON SKILL DEVELOPMENT FOR ELECTRICAL ENGINEERING STUDENTS

#### Main objectives of the workshop

- To bridge the gap between theory and practical knowledge of students.
- To refresh the knowledge of the student whatever they have studied in last four years
- To enhance the logical thinking of the students.
- To increase the confidence level of the students to face the interview.
- To refresh the basic electrical principles and laws studied during last four years.
- To verify logic gate operation using PLC, to understand ladder logic, Implementation of actual circuit into ladder logic, How to run ladder logic in PLC.
- Troubleshooting of single phase induction motor, role of starting and running capacitor, use of centrifugal switch, common problems and remedies for the same.
- To identify different sensors like RTD, Proximity sensor and their connections and how to incorporate these sensors into PLC.
- To gain concepts of applications of Op-Amp.
- To perform wiring of jogging/ inching operation of 3 phase Induction motor
- To perform wiring of control & power circuit of 3 phase DOL starter
- To create more interest in students to collect more information on topics covered in workshop.

By keeping the above objectives in mind our department has conducted this workshop from 21<sup>st</sup> September 2015 to 30<sup>th</sup>. September 2015 for S.E, T.E & B.E students. The schedule of the workshop conducted are given below

Sr No.	Class	Div	Date	Time
1	SE	A	21/09/2015	10:00-01:00
2	SE	B	22/09/2015	02:00-05:00

3	TE	A	28/09/2015	10:00-01:00
4	TE	B	28/09/2015	02:00-05:00
5	BE	-	30/09/2015	10:00-01:00

Before conducting the workshop, the students are directed about the activity to be conducted also informed them to prepare for the relevant topic before attending the workshop. The different activity which are conducted in the workshop and its objectives are given below

## **ACTIVITIES OF ELECTRICAL WORKSHOP**

### **Second Year Electrical Engineering:**

#### **Verification of Faradays law of electromagnetic induction**

Faradays law of electromagnetic induction is the basic law which explains the working principle of most of the electrical equipments such as motors, generators, transformers, inductors etc Verification of this law helps in understanding the basic concept

#### **Estimation of components of household wiring and applications**

Basic knowledge of different types of components used in household wiring with its rating and its application is required for all electrical engineers Along with this estimation of components required for the electrification are being worked out in the above assignment

#### **To measure parameters of a coil using conventional method**

How to measure the basic parameters of the coil such as resistance, inductance, and quality factor etc using conventional method can be studied by above experiment

### **Third Year Electrical Engineering:**

#### **Testing of cable using IR tester**

Health of insulation monitoring is the important requirement of electrical equipments Testing of cable using I R Tester helps to understand how to measure the insulation resistance of cable using I R Tester and the basic parameters affecting the insulation resistance

#### **Troubleshooting of single phase motor**

The single phase motors are simple in construction, cheap in cost, reliable and easy to repair and maintain. Due to all these advantages the single phase motor finds its application in vacuum cleaner, fans, washing machine, centrifugal pump, blowers, washing machine, small toys etc.

Finding the different faults encountered in these motors and troubleshooting by simulating faults are explained.

### **Control & power circuit for jogging/inching operation of induction motor using single push button**

The basic idea of the above experiment is to teach the skills of developing different control circuits for different process application using simple switchgear components

### **How to identify field and armature of D.C motor**

Identifying the different D.C motor by field and armature connections and their interconnection are being explained in this assignment

### **Final Year Electrical Engineering:**

#### **Troubleshooting of home appliance**

Home appliances like washing machines, vacuum cleaners, Mixer machines, Iron box, fans, and Washing machines are encountered with simple faults during their operation. It is important for the electrical engineer to understand the cause of these problems and solve it. Construction, working of these appliances and troubleshooting of these faults are being taken up in this assignment

#### **Identifying the terminals of various sensors**

Different types of sensors are used for sensing various parameters such as pressure, temperature, distance, humidity etc. Identifying these sensors, understanding the principle of working of these sensors and their terminal diagrams are being explained

#### **Using op amp 741, design a comparator, Schmitt triggers, Sine wave generator**

Design of different analog circuits such as comparators, Schmitt triggers sine wave generators using op amp 741 are being explained in this experiment. This will help to understand the working principle of operational amplifiers, its characteristics, application and how Operational amplifiers can be used to perform mathematical operations on voltage signals such as inversion, addition, subtraction, integration, differentiation, and multiplication etc

Before starting the workshop a pre-assessment sheet is given to the students with important questions about the relevant topic of the workshop. Students answered the questions and submitted the sheet. After the workshop a questionnaire with more depth is given and interactive session was held with the students before getting the feedback. We have observed that

the students have written more accurately and relevant answers in the post assessment sheet than in the pre-assessment sheet.

In the workshop, we formed 6 groups and each group was consisting of 4-6 students and they have been guided by the 2-3 staff members on each group.

The response received from the students for this was overwhelming and they really participated in the workshop with full interest and enthusiasm and they gained maximum benefit as per the response received by them in the feedback after the workshop. The students are also informed us that this type of program will be beneficial to them for their development in their future. We are also planning to conduct similar type of workshops in future.

### Feedback Analysis of Electrical Work Shop-Phase I from the students

Sr. No.	Assessment	Percentage
1	Insufficient	1.00%
2	Average	2.00%
3	Good	21.00%
4.00%	Very Good	38.50%
5	Excellent	37.50%

## Semester Plan for Technical Workshop AY (2015-16)

Sr No.	Title	Class	Date & Time	Staff
1	1. Verification of faraday's law of electromagnetic induction. 2. Estimation of components of household wiring & applications. 3. To measure parameters of coil using conventional methods.	SE-(A)	Date:07/09/2015 Mon 3:15-5:15	DKW MPD
			Date:12/09/2015 Sat 3:15-5:15	LMM HBW
2	1. Verification of faraday's law of electromagnetic induction. 2. Estimation of components of household wiring & applications. 3. To measure parameters of coil using conventional methods.	SE-(B)	Date:09/09/2015 Wed 3:15-5:15	VRN MPD
			Date:12/09/2015 Sat 3:15-5:15	MNR ARS
3	1. Using op-amp 741 design a comparator, Schmitt trigger, sine wave generator. 2. How to identify field & armature of DC motor. 3. Testing of cable using IR tester/megger. 4. Troubleshooting of single phase motor.	TE-(A)	Date:15/09/2015 Tue 3:15-5:15	SPK PKG AML
			Date:19/09/2015 Sat 1:15-3:15	DKW RST SVC
4	1. Using op-amp 741 design a comparator, Schmitt trigger, sine wave generator. 2. How to identify field & armature of DC motor. 3. Testing of cable using IR tester/megger. 4. Troubleshooting of single phase motor.	TE-(B)	Date:18/09/2015 Fri 3:15-5:15	MUS AML SVC
			Date:19/09/2015 Sat 3:15-5:15	SKM PKG DKW
5.	1. Design of various controller for unstable system. 2. Identifying the terminals of various sensors. 3. Estimation of components of proper sizes of switches, fuse, overload relay, cable size, for small industrial unit. 4. Control & power circuit for jogging/ nching operation of induction motor using single push button. 5. Troubleshooting of home appliances	BE	Date:22/09/2015 Tue 10:15-12:15	ARS NSP SGK AML
			Date:28/09/2015 Sat 3:15-5:15	MUS DMS ADM SGK

## **ICUBE Activity**

### **REPORT OF ELECTRICAL WORKSHOP ON SKILL DEVELOPMENT FOR B.E.STUDENTS: PHASE-I**

#### **Main objectives of the workshop**

- To bridge the gap between theory and practical knowledge of students.
- To refresh the knowledge of the student whatever they have studied in last four years
- To enhance the logical thinking of the students.
- To increase the confidence level of the students to face the interview.
- To refresh the basic electrical principles and laws studied during last four years.
- To develop skills such as developing circuit diagram, wiring of the circuits as per the diagram, testing of insulation of equipments, calibration of meters, basic testing and wiring of DC and AC machines, estimation of components required for wiring etc.
- To make them more thorough in using the basic electrical instruments like megger, CRO, DSO, measuring instruments, clamp meters etc.
- To make them to aware of the problems faced in household electrical equipments and to troubleshoot them.
- To create more interest in students to collect more information on topics covered in workshop.

By keeping the above objectives in mind our department has conducted this workshop on Tuesday 3<sup>rd</sup> March, 2015 from 10:15 am to 5:15 pm. Before conducting the workshop, the students are directed about the activity to be conducted also informed them to prepare for the relevant topic before attending the workshop.

In the workshop, we formed 8 groups and each group was consisting of 4-6 students and they have been guided by the 2-3 staff members on each group.

The response received from the students for this was overwhelming and they really participated in the workshop with full interest and enthusiasm and they gained maximum benefit as per the response received by them in the feedback after the workshop. The students are also informed us that this type of program will be beneficial to them for their development in their future. We are also planning to conduct similar type of workshops in future.

## ICUBE Activity

### REPORT OF ELECTRICAL WORKSHOP ON SKILL DEVELOPMENT FOR B.E. STUDENTS: PHASE-2

#### Main objectives of the workshop

- To bridge the gap between theory and practical knowledge of students.
- To refresh the knowledge of the student whatever they have studied in last four years
- To enhance the logical thinking of the students.
- To increase the confidence level of the students to face the interview.
- To refresh the basic electrical principles and laws studied during last four years.
- To verify logic gate operation using PLC, To understand ladder logic, Implementation of actual circuit into ladder logic, How to run ladder logic in PLC.
- Troubleshooting of single phase induction motor, role of starting and running capacitor, use of centrifugal switch, common problems and remedies for the same.
- To identify different sensors like RTD, Proximity sensor and their connections and how to incorporate these sensors into PLC.
- To gain concepts of applications of Op-Amp .
- To perform wiring of jogging/ inching operation of 3 phase Induction motor
- To perform wiring of control & power circuit of 3 phase DOL starter
- To create more interest in students to collect more information on topics covered in workshop.

By keeping the above objectives in mind our department has conducted this workshop on Monday 23<sup>rd</sup> March, 2015 from 1:00 pm to 5:15 pm. Before conducting the workshop, the students are directed about the activity to be conducted also informed them to prepare for the relevant topic before attending the workshop.

Before starting the workshop a pre-assessment sheet is given to the students with important questions about the relevant topic of the workshop. Students answered the questions and submitted the sheet. After the workshop a questionnaire with more depth is given and interactive session was held with the students before getting the feedback. We have observed that the students have written more accurately and relevant answers in the post assessment sheet than in the pre-assessment sheet.

In the workshop, we formed 6 groups and each group was consisting of 4-6 students and they have been guided by the 2-3 staff members on each group.

**Power System:**

1.	Prof. M.U.Shetty, Prof. M.P.Deshpande Prof. S.K.Mahajan	To perform wiring of jogging/ inching operation of 3 phase Induction motor	Hands on practice to construct starter connecting various components.	<ul style="list-style-type: none"><li>• Contactors 3 Nos. with auxiliary contactors 220/415V NVC</li><li>• Start stop phases.</li><li>• Overload relay. 4-6.5A</li><li>• Tools.</li><li>• Insulation tape.</li><li>• Timer-220/415V NO/NC Contacts.</li></ul>

**Department of Electrical Engineering**

**Pre-assessment of Students for Electrical Work Shop-Phase II**

1. Why are centrifugal switches provided on 1-phase Induction motors?
2. After servicing a single phase fan it was found to run in reverse direction. What could be the reason?
3. Draw wiring diagram of 2 lamps, 1 fan, & 1 CFL & connect 1 ph 230V supply & convert it into ladder diagram.
4. Draw symbols & TT of AND, OR, E-XOR, NOR, NAND, gate & verify logic gate in PLC.
5. Draw wiring diagram of DOL starter (Draw control & power circuit) in PLC.
6. Draw wiring diagram of Star-Delta starter (Draw control & power circuit) in PLC.
7. Draw ladder diagram for automatic door opening.
8. What do mean by PT-100?
9. Compare thermocouple, thermistor & RTD.
10. Color coding of thermocouple & sensors.
11. How to shift output voltage down using Op-amp?
12. What is meant by jogging/inching?

**Post-assessment of Students for Electrical Work Shop-Phase II**

1. Which 1-phase motor is used in ceiling fan?
2. In 1-phase Induction motors ratio of starting Capacitor to running Capacitor is ?
3. In what respect does a 1-phase induction motor differ from a 3-ph IM.?
4. How to reverse the direction of capacitor start single phase IM?
5. How to reverse the direction of rotation of shaded pole single phase IM?
6. Draw ladder diagram of 2 way & 3 way switch.
7. What is difference between control & power circuit.
8. What do u mean by PTC & NTC?

Notice/GESRHSCOEMS/EE/GATE-IES/01

**NOTICE**

Date: 24.01.2018

As department of Electrical Engineering has initiated the GATE/IES circle for T.E. (A & B Division) students. In view of this only interested students are required to give their names to Dr.A. Koshti/Mr. J. U. Kothavade upto 29.01.2018. The first test will be conducted on 10.02.2018 (3:00 PM-4:00 PM) for the subject of Network Analysis.

**EMPLOYABILITY ENHANCEMENT PROGRAMME**

**Skills Development**

Date: 19 March – 23 March, 2018

Venue : Sir Dr.M.S.Gosavi Seminar Hall,

( Computer Dept. )

**Objectives :**

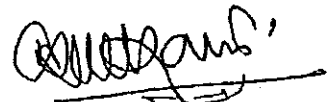

To enable the Engineering Students to :

1. realise the role of Communication Skills / Soft Skills in the Job Seeking Process.
2. acquire necessary Oral and Written Communication Skills which will enhance their employability.
3. become technically qualified as well as professionally competent by acquiring skills useful in real-life situations.
4. develop their personality by possessing Hard Skills and Soft Skills for better job opportunities.

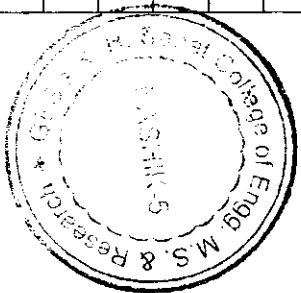

Day & Date	Time	Course	Topic	Resource Person
Monday 19/3/2018	1.00 to 3.00 p.m.	B.E. (Electrical Engineering)	Preparing for an Interview • Interview Techniques. • Mock Interview.	Prof. S.R. Kulkarni Prof. P.B. Bhore
Tuesday 20/3/2018	1.00 to 3.00 p.m.	B.E. (Civil Engineering)	Preparing for an Interview • Interview Techniques. • Mock Interview.	Prof. S.R. Kulkarni Prof. P.B. Bhore
Wednesday 21/3/2018	1.00 to 3.00 p.m.	B.E. (Mechanical Engineering)	Preparing for an Interview • Interview Techniques. • Mock Interview.	Prof. S.R. Kulkarni Prof. P.B. Bhore
Thursday 22/3/2018	1.00 to 3.00 p.m.	B.E. ( E & TC Engineering)	Preparing for an Interview • Interview Techniques. • Mock Interview.	Prof. P.B. Bhore Prof. S.R. Kulkarni
Friday 23/3/2018	1.00 to 3.00 p.m.	B.E. (Computer Engineering)	Preparing for an Interview • Interview Techniques. • Mock Interview.	Prof. P.B. Bhore Prof. S.R. Kulkarni

Pune.

Subject: Letter of Thanks for conducting expert lecture on "Result Oriented Attitude" for the Electrical Engineering students.

Respected Sir,

We thank you for conducting an expert -session on "Result Oriented Attitude" for the Third and Final year Electrical Engineering students. The students were pleased with your valuable knowledge which motivated them to become a 'Complete Person'.

We look forward for your support in the near future.

Thanking You,

With Warm Regards

Dr. P. C. Kulkarni  
Principal

Letter of Invitation

To,  
(Dr.) Prashant B. Nehe,  
IIT Bombay,

Sub :- Invitation for Expert Lecture on "Project Report Writing"...

Dear Sir,

We are conducting I-CUBE activity since 2013, which is carried under the aegis of MESA. In this activity we are providing the students with extra inputs other than syllabus in the form of Workshops, expert lectures, training, seminars, Industry visits etc.

We request you to deliver expert lecture on "Project Report Writing" on 12<sup>th</sup> February 2016 to final year engineering students and also guide our students, and share your experiences.

We will be grateful to you if you accept this invitation.

Thank you.

Yours Truly,

Prof. K. V. Chandratre  
Head of Deptt.  
Mechanical Engineering Department

**Letter of Invitation**

To,

Dr.Nareshchandra V. Kathole,

Director of "Mission IAS"

Amaravati.

**Sub: - Invitation for Expert lecture on "Mission IAS"**

Dear Sir,

We are conducting I-CUBE activity since 2013, which is carried under the aegis of MESA. In this activity we are providing the students with extra inputs other than syllabus in the form of workshops. Expert lectures, training, seminars, Industry visit etc.

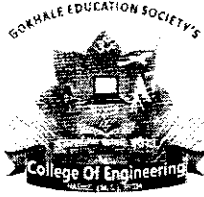

We request you to deliver expert lecture on "Mission IAS" on 06/01/2016 to last year students and also guide our students, and share your experience.

We will be grateful to you if you accept this invitation.

Thank you.

Yours Truly,

  
Prof. K.V. Chandratre  
Head of Department.  
Mechanical Engineering

Gokhale Education Society's,  
R.H. Sapat College of Engineering, Management Studies  
and Research.

Prin. T. A. Kulkarni, Vidyanagar, Nasik - 422005

**Mechanical Engineering Department**

Notice

Date:-13<sup>th</sup>January 2016

All the students of Final year and Third Year Mechanical are hereby informed that on 14<sup>th</sup> January 2016, Thursday an Expert Lecture is organized on "Mission IAS" at 10:30 am as a part of I-CUBE activity which is carried under the aegis of MESA.

Kindly remain present for Expert Lecture.

Venue: Sir.Dr.M.S.Gosavi seminar Hall.

Sub :-Letter of Thanks for Expert lecture on "Mission IAS"...

Ref :- Our Letter of Invitation no. GESRHSCOE/Mech/2016/ Proj.82 ; dated 06/01/2016

Dear Sir,

With reference to above subject, we thank you for delivering an expert lecture on "Mission IAS" on 14/01/2016 to Third and Final year students of mechanical engineering department. Your years of experience and your depth of understanding of subject enriched our student in multifaceted ways.

We are grateful for the time and effort you took to share your thoughts and experiences with our students. We hope that you would like to associate to share your experiences with our institute in future also. The information you shared, would be very useful to the students throughout their life.

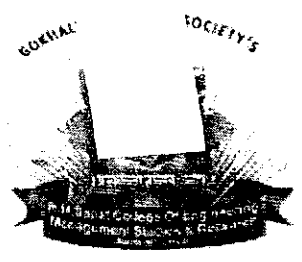

We are once again thankful to you, and expect same cooperation in future also.

Yours Truly,

Prof. K. V. Chandratre

**AND RESEARCH**

Prin. T.A. Kulkarni Vidyanagar, Nashik- 422 005.

**DEPARTMENT OF MECHANICAL ENGINEERING**

Workshop on

**“Vibration Measurement Using FFT Analyzer”**

**03/02/2018 Class: ME I, II**

Time/Batch	Activity	Topics
10.15am -12.15pm ME I, ME II	Session-I	<b>Introduction to Vibration, Measurement &amp; control of Vibrations</b> (Review of Vibration, Types of Conventional Vibration measuring instruments, Introduction to the FFT Analyzer, Construction working Block diagram of FFT Analyzer, Different Tests that can be performed on FFT Analyzer, Signature Analysis-Study Analysis of different Spectrum, Condition Monitoring - Condition Monitoring Techniques
1.00-4.00 pm ME I, ME II	Session -II	<b>Vibration Analyzer – FFT (for Condition Monitoring)</b> (Introduction, Analysis of spectrum, <b>Case studies-</b> 1) Vibration Measurement of Cracked Cantilever Beam using FFT 2) Engine Vibration Measurement: Two wheeler/Four wheeler car. 3) Condition Monitoring of lathe M/C
