To,
Dr. Prashant Nehe,
Gokhale Education Society
College of Engineering, Nashik

Dear sir,

The university is offering B.Sc. (Industrial Science) programme for last six years. The purpose while developing this programme was to make available the opportunity of graduation to the diploma students as well as the skilled workers working in the industry.

At present there are Study Centres in polytechnic institutes as well as in industries. The students working in industries get stipend for three years from the industry.

Recently Mahindra & Mahindra, Nashik approached YCMOU regarding starting programme in collaboration which will cater the need of skilled manpower of M&M. It was decided to conduct a meeting with industry experts (from M&M) and academic experts from Engineering Colleges to discuss the structure and syllabus of the programme.

The one day meeting (11.00 A.M. – 5.00PM) is organized at YCMOU headquarters on 8th February 2018 to discuss on the proposal of M&M and decide the structure (preferably fit it into the existing B.Sc. (Industrial Science) programme by adding necessary courses as electives) and syllabus.

I hope that you will manage to find time for this from your busy schedule and your valuable contribution will help in designing the programme.

Thanks and Regards

Dr. Pramod Khandare
Director (I/c),
School of Computer Science
