Department of MCA Engineering

VISION

Empowerment through “Value Embedded Quality Technical Education” to produce globally competent professionals, researchers, innovators and entrepreneurs for development of self and society.

MISSION

- To bridge the gap between industry and academia by focusing on industrial internship to cater societal needs.
- To instill learning ability through collaborative and interdisciplinary activities.
- To impart distinct education to stream graduates coming from Commerce and Arts background thus channelizing them towards employability.
- To kindle competent professionals to become part of the industry and research organizations at the National and International Levels
