Problem Code : DR718
Team Leader Name : Prasad G. Katkade
College Code : 1-2809234158
Problem Statement : Online integrated platform for projects taken up by the students of various universities/colleges.
Idea Description :
From given problem statement we analysed requirements such as 1)Students/Universities should be able to showcase their projects while maintain integrity 2)Smart check for plagiarism 3) Provide Statistical Analysis of projects happening around India and to fulfil all these requirements we are proposing a solution to create a web-based platform where students/universities can showcase their projects also allowing other students to interact with published projects and while also maintain integrity of each individual project with Blockchain Technology. The Platform will be divided in 3 parts 1)Main Site where students can explore other universities and students projects also look for analytics of projects 2)Students Dashboard through which students can add update & delete their projects and one bonus feature to validate their projects ideas as start-ups 3)College Dashboard through which registered SPOC of college can approve or on plagiarism remark
