Report on two- day Workshop on “Hands-on Arduino: Build Your First Embedded System”

Date: 11th & 12th March 2026

Venue: VLSI Lab

The Department of Electronics and Telecommunication Engineering, in collaboration with ESTA and IEEE Student Branch, organized a two-day workshop for **Second Year E&TC students** on “Hands-on Arduino: Build Your First Embedded System”, conducted by **Mr. D. M. Raut** and **Dr. K. V. Karad**, Assistant Professors, Department of Electronics and Telecommunication Engineering, **GES's R. H. Sapat College of Engineering, Management Studies and Research, Nashik.**

The objective of this workshop was to create interest and awareness among students in the field of embedded systems. The workshop also aimed to encourage students to develop their own projects and find solutions to real-world problems using their creativity, knowledge, and enthusiasm.
